FORMATIVE ASSESSMENT

L4 – NIT

MODULE NAME: NITWA401

Scenario:

Padri Vjeko Centre TSS, a technical and vocational school with over 500 students and 30 trainers, offers training Across four departments — NIT (Networking and Information Technology), FAD (Fashion and Design), WOT (Wood Technology), and BDC (Building and Construction).

To improve performance, enhance data security, and Streamline management, the school plans to implement a Windows Server Environment for hosting critical services such as the Student Management System, Attendance Tracking, File Sharing, and Intranet Access.

TASK

As the System Administrator at Padri Vjeko Centre TSS, outline the key steps and considerations for installing and configuring a Windows Server Environment to support the schools operational needs.

Instructions:

Write your answers neatly in the spaces provided below.
Number each step clearly and logically.
Include any relevant commands, configuration settings, or diagrams

GOOD LUCK!
